

DTF WHITE INK GUIDE

How To Use DTF White Ink Effectively

1. Shake the bottle before using (make sure you store the bottle upside down a day before and shake the bottle right before using).

**STORE
THE WHITE
INK BOTTLE
UPSIDE DOWN**

2. Clean frequently before and after printing (to minimise clogging of the printheads).
3. Make sure the wiper is regularly cleaned with a moistened tissue to maintain its cleanliness and prevent any printhead issues.
4. If the white ink is not used for several days, check the Line Circulation before adding more white ink to the main ink bottle.
